MY BOUTIQUE CONCEPT

“In April 2025, we start operating from the city of Malaga, offering genuine voyages and experiences”

Dear guests, partners and friends,

We are happy to announce the launch of Alma Cruceros, Spain's first boutique cruise line. This exciting project was created by great dreamers who have turned it into reality through their talent, tenacity and enthusiasm. In April 2025, we will start operating from our base in Malaga, offering genuine voyages and experiences designed for those who want to get to know Spain and its culture as true “locals”. Under this same vision, we will also explore destinations such as Morocco, France or Italy, Corsica and Sardinia.

On April 18, 2025, our first boutique ship, Ocean Victory will set sail on its inaugural cruise from Las Palmas de Gran Canaria to Malaga. During this voyage, our guests will enjoy a unique and personalized experience, with stops in fascinating destinations such as Puerto del Rosario, Agadir, Rabat, Tangier, Ceuta and Malaga, where they can spend the night and disembark the following day.

Other extraordinary itineraries will follow, connecting the ports of Andalusia with the fascinating destinations of Ceuta and Melilla, hidden gems that will surprise our guests. We will also visit hidden ports on the French Côte d'Azur, as well as explore and enjoy the marvelous waters of Corsica, Sardinia and the Balearic Islands.

At Alma Cruceros, we are proud to offer a product made by Spaniards and designed for all those who wish to know our culture and our roots in depth, as if you were a true Spaniard and living with the local public.

Our proposal differs from other cruise lines in that we have created an onboard experience tailored to the taste of Spaniards and for everyone who wants to share and live our way. From gastronomy and services and schedules that are adapted to the lifestyle we enjoy to music, nightlife and entertainment shows. Everything is designed with the language you understand best (English or Spanish, with menus available in several languages) and with the Spanish culture always in mind. Our crew members adapt to your needs, ensuring smooth communication and personalized attention.

We want our first ship and those to come to be a meeting point for all Spanish speakers and non-Spanish speakers, offering an authentic and welcoming cruise experience.

Alma Cruceros is synonymous with exclusivity, authentic experiences, innovation and responsibility. We combine Spanish cultural tradition with modernity and the cutting edge, creating a unique proposal that fuses the elegance of a traditional cruise with the intimacy of a private yacht.

Our first ship, the Ocean Victory, is a jewel of modern engineering. With 93 double cabins, all exterior and most with a balcony, the Ocean Victory is designed to accommodate only 186 guests, guaranteeing an intimate and personalized experience. We have more than 100 crew members dedicated to meeting your every need.

At Alma Cruceros, we are hugely committed to sustainability and environmental protection. For us, it is fundamental to our business dad. Our ship features state-of-the-art technology in safety and communications, as well as hybrid engines that reduce environmental impact. Thanks to its innovative design and Ulstein X bow, the Ocean Victory is one of the ships emitting the least CO2 per guest in the world.

What's more, on board our cruises, our guests can enjoy the best gastronomy in our five restaurants - run by 15 Michelin stars Martín Berasategui and Paolo Casagrande - as well as a wide range of entertainment that includes art exhibitions, live shows that will amaze, and music of different styles in many of the ship's spaces.

Our unique itineraries are designed to offer an unparalleled cultural and scenic experience. From the exoticism of Morocco to the most beautiful coasts of Andalusia, Côte d'Azur, Corsica, Sardinia and the Balearic Islands. Each route is an invitation to discover and enjoy. The experience of each and every destination will be unique and memorable.

On behalf of the entire Alma Cruceros team, I'd like to welcome you aboard on this new adventure, and we'd love to have your company on our maiden voyage on April 18, 2025, or on any of the other voyages and itineraries we have created for you. We are sure you will enjoy an experience that will touch your soul, full of unforgettable moments.

Sincerely yours,
Elisardo Sánchez
President of Alma Cruceros

world

COMMITMENT TO SUSTAINABILITY AND THE ENVIRONMENT

My first ship, the Ocean Victory is more than a cruise ship: it is the symbol of a deep commitment to our planet and a beacon of hope for a more sustainable seafaring future. With every wave, she cuts through and in every port she docks, she carries a message of environmental responsibility and environmentally conscious adventure.

Imagine sailing with me on this ship, knowing that every nautical mile we travel is marked by a 60% reduction in our carbon dioxide emissions, thanks to her advanced marine technology. Previously, up to 24 metric tons of fuel were consumed daily on similar cruise ships, but now, with her efficient systems, she needs only 10 to 12 metric tons to operate without compromising her ability to accommodate some 200 guests in comfort and luxury.

Her inverted X bow, precision engineered by the renowned Norwegian shipyard Ulstein, not only improves her stability in turbulent waters but also minimizes aerodynamic drag, significantly reducing her environmental impact while cruising. Her hybrid engines and smart energy management ensure that every resource is optimally

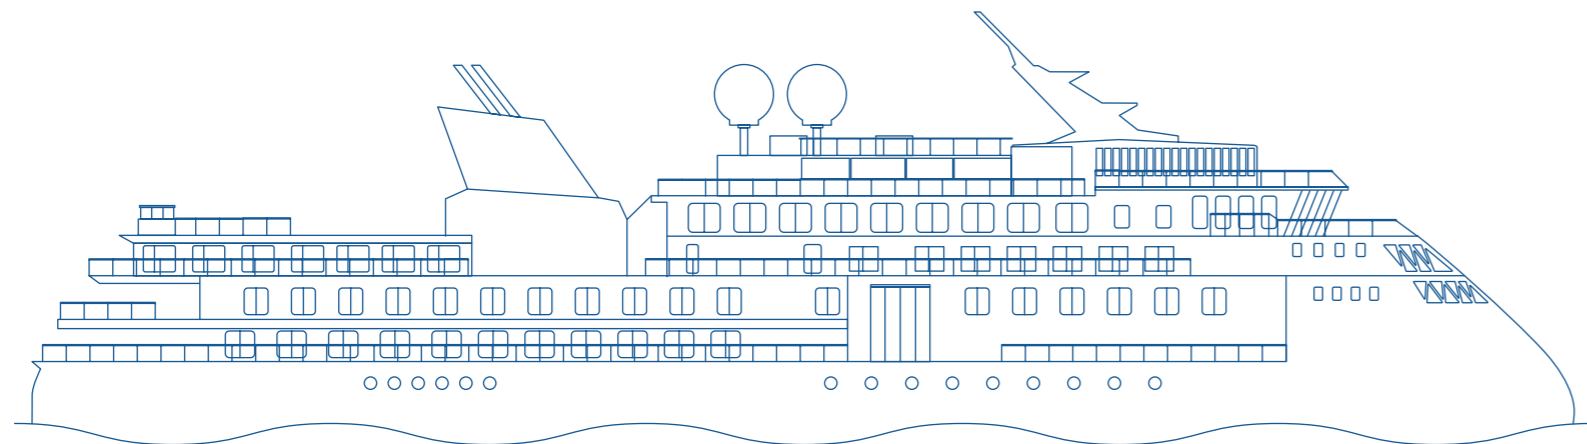

utilized, returning excess energy to her engines to make your voyage efficient and environmentally friendly.

On her deck, you'll find more than just comfort and elegance: you'll discover a commitment to a greener future. Every detail, from her Rolls Royce stabilizers that ensure a smooth ride to her environmental management practices, is designed to inspire and lead the way to a more environmentally conscious maritime industry.

Join me on this exciting adventure where the beauty of our destinations is combined with the responsibility to preserve them for future generations. Together, we will explore the most remote corners of the world with hearts full of wonder and a clear conscience, confident that we are sailing toward a brighter, more sustainable future.

I invite you aboard the Ocean Victory, where every voyage is an opportunity to change the world!

EXPERIENCE

I AM THE MOST MICHELIN STARRED CRUISE LINE IN THE INDUSTRY

Gastronomic proposal on board by *internationally renowned Michelin-starred Spanish chefs Martín Berasategui and Paolo Casagrande*

Thanks to them, I am the most Michelin starred cruise line in the international cruise industry. This collaboration guarantees an unprecedented gastronomic offer, all included in the price of the cruise, which combines Spanish and Mediterranean cuisine with high-end international influences.

The agreement, which covers Alma Cruceros' first five cruise seasons, contemplates the possibility of extending the collaboration in the future. Both chefs will be responsible for designing my gastronomic concepts, my menus, and for selecting every detail of the service, including: kitchen equipment, tableware, cutlery, glassware and table linens. Thus, diners will enjoy not only an exceptional culinary offering, but also a complete and harmonious experience in each of my five gastronomic spaces on board.

Paolo Casagrande, executive chef at Lasarte restaurant in Barcelona, with three Michelin stars, and another star at Orobianco, in Calpe, will lead the Italian and Asian restaurants, the Mediterranean brasserie and signature tapas, as well as designing the buffet, and a la carte breakfasts.
